The lowest station is at Deorali near Institute of Tibetology. There are no seats in the cable car, so you need to stand. The next station is Namnang and the top most station is in Tashiling next to the Secretariat. One way ride takes about 10 minutes.

The whole of Gangtok township and if you look down below where you started, you will see the Deorali bazaar. You can also get amazing views of Kanchenjunga snow peaks and the valleys. Look down and you can see a river flowing some 3500 feet below. Overall an unforgettable experience.

Rumtek Monastery : This is a huge lovely monastery located in the opposite mountain at a distance of about 23kms from the Gangtok town. It has been built in grand Tibetan architecture and almost like a replica of the original monastery in Tibet. Apart from the monastery and its rare collections of Tibetan art work, relics etc, other attractions in the complex includes the Golden Stupa of the 16th Karmapa and Nalanda Institute of Higher Buddhist Studies.

DAY 3

TSONGMO LAKE DAY EXCURSION / NATHULA PASS & BABA MANDIR

OVERNIGHT : GANGTOK

Today after early morning breakfast proceed for Tsongmo Lake. Trip started early morning at 8am and reached there within 3 hours. The place is a very beautiful place to be with snowfall and the chilling weather

Tsongmo Lake : Tsongmo Lake, also known as Changu Lake is a glacial lake in Sikkim and located at an altitude of 12,310 feet. The name Tsongmo means 'Source of water'. It's located 40kms from

Gangtok town. This is one of the few and awesome high altitude lakes in India. The lake becomes doubly attractive with the reflections of the surrounding hills on the water. From Gangtok which is at 5410 ft, the altitude rises to about 10,000 ft in just 15kms.

Try a yak-ride along the shores of the alpine lake or take a walk past the food-stalls and souvenir shops to the natural shore of the lake.

Nathula Pass: Located at an altitude of 14,140 feet and 56kms from Gangtok, Nathula Pass was the place through which the famous Silk Route used to operate until 1962. This used to be the silk trade route between India and Tibet. Lines of mules used to carry silk, gold and many other items from Tibet to India and take daily essentials back to Tibet. The route in Tibet goes down the Chumbi Valley to Yathung, a place about 30kms away which once used to be a major trading township (no longer so). In fact on a clear day you can see this route winding down the valley. If you look at the eastern horizon, you can see the magnificent peak of Chomolhari of Bhutan

Baba Mandir: There is a touching story associated with this temple. Harbhajan Singh was a Sentry of Punjab Regiment and was posted here as part of border patrol force. The border with China is nearby. In October 1968 he disappeared. It is said that while escorting mules carrying provisions, he fell into a stream and drowned. After a few days he reappeared in the dreams of one of his sentry colleagues and asked him to make a memorial here on his name..

The sentries then made a samadhi and later this temple was built. Although Harbhajan Singh is no more, the sentries and guards here believe that his spirit is still alive and he is therefore treated as a living being. They all believe that Harbhajan will guard and protect them in this very difficult terrain.

While Harbhajan Singh is dead since long, his live memories have resulted in several actions from the army which is rarely seen. Out of sheer belief that he his spirit is still around, he has been promoted to the rank of honorary Captain.

Over the years the temple has become a place of pilgrimage. Inside the temple you will find large photo of turbaned Harbhajan Singh which is worshipped. Many who come here leave a bottle of drinking water which they arrange to collect a few days later. It is believed that one can fulfill one's wishes by drinking that water. You will often find that army trucks passing by stop here and soldiers come and offer quick prayers before proceeding.

Note : Only visitors from India have the option of visiting the border check-point of Nathula-Pass and Baba Mandir. Take a glance at the Tibetan Plateau and the Chinese & Indian guards.

Evening back to hotel, Overnight in Gangtok

Here comes another goodbye to Sikkim that all of us have mixed feelings about, as it leads to a visit to the well-known Darjeeling

Darjeeling hill town is located at an altitude of 6,710ft in north east India and is part of the state of West Bengal. Darjeeling hill town was originally set up as a sanitarium or health resort by the British in mid 1800s. But over the years, it earned its name for its world famous aromatic tea and then with opening up of roads and Darjeeling Himalayan Railway, for tourism.

You will see numerous sprawling tea estates in Darjeeling that produce world's best tea, as well as the amazing narrow gauge Toy Train - an engineering marvel of 1880s which could overcome the steep gradients and curves of the mountains and provided a scenic railway transportation in the hills. Once you reach there, after a welcome by the rising clouds and a nutritious breakfast, check-in to your hotel.

The town center of Darjeeling is known as Mall or Chowrasta, which is a flat open public square, a pedestrian only zone free of vehicular traffic and surrounded by colorful stores with backdrop of mountains and valleys. Mall or Chowrasta is the main town center.

Once you reach there, after a welcome by the rising clouds and a nutritious breakfast, check-in to your hotel

and spend the day in the best possible way. In the evening, you can always explore the Mall (actually a small meeting place, as we all know by the account written by RK Narayan) and spend the night in this film hub.

DAY 11

DARJEELING LOCAL SIGHTSEEING

OVERNIGHT : DARJEELING

The day starts early at 4am. The spectacular sunrise over Mt. Khangchendzongha (28,208 ft., World's 3rd highest peak) at **Tiger Hill** is a mesmerizing sight. The drive is a sense of adventure leading to an unforgettable destination surrounded by the Himalayas. On a clear day you can even see the mount Everest from here. Tiger Hill is located 11kms from the Darjeeling Town and takes about 40 minutes to reach by car.

If time permit, will come back to hotel have breakfast and proceed for **Toy Train Joy Ride**. If not we will directly proceed for Joy Ride from Tiger Hill. Riding the Toy Train of Darjeeling Himalayan Railways has always remained a coveted experience. Operating on narrow gauge tracks since 1880s and providing an important transport link to various parts of Darjeeling hills and lower plains, the toy train is an icon of our heritage since the colonial days and an engineering marvel that was achieved in that era. It also offers a wonderful way of absorbing the Himalayan beauty as you traverse along the slopes of the hills. Where else can you find a small steam engine pulling mini coaches up the steep mountains through breathtaking landscapes and overcoming almost impossible curves and gradients using sheer engineering ingenuity and creative skills. The snail pace at which the train moves through the hilly terrain is at times so slow that you can often see the local school children hopping on and off the train on the move.

Toy train joy rides operate from Darjeeling Railway Station. It's a 2-hour round trip from Darjeeling up to **Ghum** and back covering a total distance of 14kms. At **Batasia** the train makes a loop around a wonderful manicured garden. The view of Darjeeling town and the snow peaks of Kanchenjunga from here are unparalleled. The War Memorial built in honor of the Gorkha soldiers who sacrificed their lives is located at the center of the Garden. Ghum is the highest altitude station on the Darjeeling Himalayan Rail track. Altitude of Ghum is 2225.7 meters (7407 ft). Here the toy train stops for 30 minutes for a visit to Darjeeling Himalayan Railway museum. The DHR Museum is located at the station premises. The highlight here is the oldest toy train engine- The Baby Sivok

After Joy Ride head towards **Himalayan Mountaineering Institute, P.N. Zoological Park (Thursday Closed), Tenzing Rock, Tibetan Refugee self-help Centre (Sunday closed) Tea Garden, Japanese Temple, Peace Pagoda and Ropeway**. Darjeeling Ropeway is one way you can be part of special diverse offerings from the nature and all in one place. From the ropeway of Darjeeling which is also known as the Rangeet Valley Passenger Cable Car, you can have mind blowing view of the valley below, see the spread of lush tea gardens, dense forests, mountain streams in their full flow, waterfalls, and the awesome snow peaks at the background. Get off at a lower station and enjoy the tea estates, walk through the tea gardens, or just relax and enjoy the view around. It's hard to find all these together in one place.
