### TRANSFER DELHI TO AGRA

#### OVERNIGHT : AGRA

Have an early breakfast and after which, leave for Agra via road (4 hours journey). Enroute, you would be making a halt to explore one of the finest creations of the Mughals Sikandra. Named as Sikandar, it is actually the mausoleum of the Great Mughal ruler, Akbar. The design of this fascinating structure boasts of a perfect blending of Islamic, Jain, Buddhist, Christian and Hindu themes.

After this, come back on your course to Agra. First in the list would be the wonder of the world, the beautiful **Taj Mahal**. What is widely considered as the most beautiful building in the world, Taj Mahal is located in the historical city of Agra. It was built by the Mughal Emperor Shah Jahan as a memorial for his third wife, Mumtaz Mahal. Constructed entirely out of white marble in the 17th century, it is among the finest edifices of Mughal architecture. Recognised by the UNESCO as a world heritage site, this monument is also considered to be one of the seven wonders of the modern world. Every year visitors numbering more than the entire population of Agra pass through the magnificent gates to catch a glimpse of this breathtaking monument, and only a few leave disappointed. Shah Jahan said about the Taj that it made "the sun and the moon shed tears from their eyes".

The Taj Mahal stands for the Crown of Palaces in the Persian language. It rises from the dust-beaten earth of Uttar Pradesh, but even the wildest imaginations leave visitors underprepared for this world wonder. Covering an area of approximately 42 Acres, the Taj Mahal was constructed using white marble obtained from Makrana in Rajasthan.

Rabindranath Tagore described it as "a teardrop in the cheek of eternity" while Rudyard Kipling said it is "the embodiment of all things pure". Next in the list **Agra Fort** With the Taj Mahal overshadowing it, one can easily forget that Agra has one of the finest Mughal forts in India. Walking through courtyard after courtyard of this palatial red-sandstone and marble fortress, your amazement grows as the scale of what was built here begins to sink in. Construction along the bank of the Yamuna River was begun by Emperor Akbar in 1565 on the site of an earlier fort. Further additions were made, particularly by his grandson Shah Jahan, using his favourite building material – white marble. The fort was built primarily as a military structure, but Shah Jahan transformed it into a palace, and later it became his gilded prison for eight years after his son Aurangzeb seized power in 1658.
